-2-

20 February 1953 under the leadership of Dipl. Ing. Gunther Riedel, but nothing much was actually achieved, and in spite of a high-sounding announcement about Grotewohl's keen personal interest, the general feeling of the plant was that little help can be expected at present.

Boehlen Gas Plant Personnel

Director of production:

Dr. Flechsig

In charge of gasoline production:

Dipl. Ing. Ludwig

In charge of high pressure plant:

Dr. Schoenefeld

In charge of low pressure plant:

Dipl. Ing. Mildner

In charge of DHD plant:

Dr. Birthler

In charge of AT plant:

Dr. Fritzsche

Chief engineer:

Dipl. Ing. Riedel.

1. Comment: Figures for jet fuel production were not announced.
